

Second Relax & Meet chair

The recently positioned chair 'Relax & Meet' at De Zwarte Doos is getting company. The TU/e has decided to place a second copy of the chair, because its design is based on the idea that several copies will be placed together so that people can meet.

Student of Architecture, Building and Planning Alexander Suma, who has designed this artistic object, hopes that the second chair will be there before 4 July, the Super TU/esday of Architecture, Building and Planning.
